UriVabo

GIVE A SECOND LIFE TO WATER ...

*More than a concept,
A responsible choice!*

www.urivabo.be

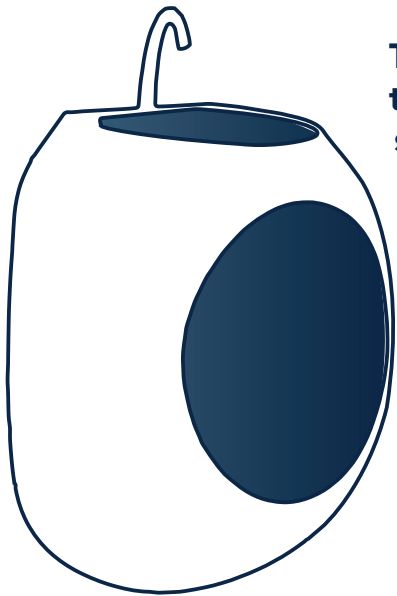

UriVabo

DONNEZ UNE SECONDE VIE À L'EAU ...

One object, two issues...

Its advantages...

The system combines sink and urinal to optimize the space dedicated to sanitary facilities for men.

Beyond its design and aesthetic aspect, Urivabo reduces the consumption of drinking water consumption in your washrooms.

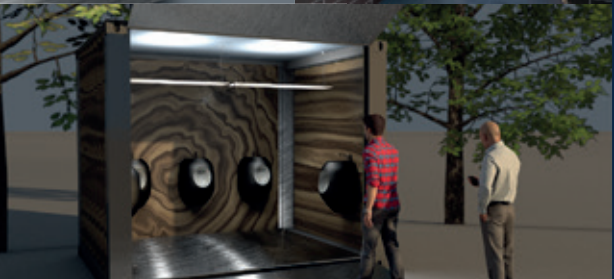

By offering a technique of re-use, urivabo intends to respond to a second challenge, that of to maximize the space in your washroom.

Modular, design and practical ...

UriVabo easily integrates all decorations ! Public spaces, containers, ephemeral modules, cafes, restaurants, communities ...

It allows a significant space saving by combining urinal and sink and washbasin ...

What else ?

Compact

Easy to install

Ecofriendly

Design

Hygienic

Economical

Made in Belgium

Customizable

100% Custom!

Give it a unique character

UriVabo

The four-color printing of your UriVabo will elevate the object to a work of art and will give your bathroom a unique character ...

the original touch!
